

Price Waterhouse Coopers (PwC) Bursary 2018 – 2019

Price Waterhouse Coopers (PwC) is a network of firms that provides assurance, tax and advisory services to several industries. It has 23 offices in South Africa as well as operates in 34 countries throughout the African continent and 157 countries worldwide.

Price Waterhouse Coopers Bursaries

PwC created a bursary scheme which is available to students studying towards a Chartered Accountant (CA) degree at a South African Institute of Chartered Accountants (SAICA) accredited university. The programme aims to attract young people who have the potential to the firm. Bursaries do not cover the full tuition, accommodation and books expenses and as a result applicants must be prepared to pay a portion of their tuition costs at their own expense. Upon graduation, bursary holders will be required to work for PwC on a training contract where duration depends on the value of the bursary awarded.
